Fountain Medical Centre

Recruited two Social Prescribers and two Clinical Pharmacists.

Southwell Minster

Aging population; the number of patients over 50 years is higher than the England average, particularly in the 70-74 range.

Deprivation levels lower than national and ICP average.

Future priorities:

- Review access to Urgent Care
- Develop services specific to the needs of the population
- Focus on population health
- Make best use of resources available
- Closer links with local community groups and education

Asking patient groups and PPG representatives what they want
