

Mid-Nottinghamshire PBP Forum – Coversheet

TITLE:	Updates on the Mid Notts Health Inequalities and Partnership Forums
---------------	---

DATE OF MEETING:	24/02/2022	PAPER REF:	Enclosure 8.1
-------------------------	------------	-------------------	---------------

AUTHOR:	Leanne Monger	PRESENTER:	David
		SPONSOR / COLLABORATOR:	Ainsworth/Leanne Monger Sue Batty Sponsor

WHICH ICP OBJECTIVES DOES THIS RELATE TO (SELECT ALL THAT ARE RELEVANT)

- ☐ To give every child the best start in life.
- ☐ To promote and encourage healthy choices.
- ☐ To support our population to age well.
- ☐ To maximise opportunities to develop our built environment into healthy places.
- ☐ To tackle physical inactivity.

EXECUTIVE SUMMARY (OVERVIEW):

The update includes activities that have taken place between July – December 2021 of:

- The Mid Notts Health Inequalities Group
- The Mid Notts Partnership Forum

The health inequalities group is focussing on local intelligence and gaps in our communities.

Highlights in the attached report this time:

- Reporting good partnership engagement and attendance
- Shows where the group has got to and it is clear we have more to do
- Slide 3 shows the 6 projects underway – broader than health alone
- Slide 4 gives detail of the partnership added value delivered to the COVID vaccination programme – learning more about our local communities will help future approaches.
-

The partnership forum is focussing its activities on integration across health, social care and local authority.

Highlights this time:

- The group is using learning from a case study approach to inform its thinking and future priorities as well as highlighting opportunities to integrate.
- This learning is helping to identify areas for improvements.
- Making the learning a reality into the communications group – has seen the launch of a workforce 'connector' newsletter which now gets cascaded to education, police and partners of the place-based partnership – bringing news entirely focussed on the place – an example of the Newark connector is included in this report.

The placed based partnership is therefore asked to receive the progress update being made at neighbourhood level and to provide the groups with any recommendation or feedback.

RECOMMENDATION:

- ☒ To endorse.
- ☐ To approve.
- ☐ To receive the recommendation (*see details below*)
- ☒ To discuss.
