WHICH ICP OBJECTIVES DOES THIS RELATE TO (SELECT ALL THAT ARE RELEVANT)

- To give every child the best start in life.
- To promote and encourage healthy choices.
- To support our population to age well.
- To maximise opportunities to develop our built environment into healthy places.
- To tackle physical inactivity.

EXECUTIVE SUMMARY (OVERVIEW):

The 5 PBP objectives and 10 breakthrough objectives identified for 22/23 provide the board with several actions that would be undertaken in support of delivery of our strategic objectives which provide the framework and themes in support of our overarching long term PBP vision.

The Q2 progress report against our strategic objectives continues to demonstrate that the breakthrough objectives remain long term and continue to need to be embedded in our partner organisations strategies and planning with the aim of delivering our aim of healthier and happier communities.

In 22/23 we agreed that our breakthrough objectives were identified following a test based on our core principles and PBP purpose.

1. Does a collective PBP approach add value over and above a single organisational approach?
2. Is it inclusive, overtly reflecting ways in which inequalities within our population will be addressed?
3. How does it connect to our identified neighbourhoods in greatest need?
4. Is the objective now specific, measurable, achievable, realistic and time limited/ time stated?
5. Is it clear who is the lead, for the smart objective delivery and who will support?
6. Does it reflect either an area of expected delivery, and / or an area of our agreed 5 priorities?
7. Is it in line with wider ICS/ CCG objectives?
8. Does it recognise the new world with COVID in our communities?

The objective leads continue to work with the PBP support team to deliver the breakthrough objectives to ensure they reflect the learning and can be measured, and progress evidenced during 22/23. The new reporting document also asks the leads to identify if they are on track to deliver the objective, this provides further assurance to the Executives and the ability for the Executives to review and respond if the objective is not on track.

Mid-Nottinghamshire PBP Forum – Coversheet

The Forum are asked to recognise the work that the PBP partner organisations are continuing to play in embedding the PBP strategic objectives and vision through identified leads and the work being undertaken in connecting the objectives and ensuring appropriate and ensuring appropriate membership and inclusion of all partners across our PBP.

Some highlights include:

1.2 Mid Notts PBP now have a Best Start steering group that can lead the work required at a local level, focussing on local children and families.

Public Health have successfully recruited to the Best Start Public Health and commissioning Manager post. This person will lead the implementation of the Best Start Strategy and support PBPs with the delivery of their local objectives."

2.2 Intention to sign Tobacco Declaration, HI subgroup to take forwards action on pledges and report back.

Participation and representation at the H&W board workshop

Work around the use of e cigs as a quit aid continue be developed with Change Grow Live and Public Health.

All partners including ABL and Mid Notts PBP signed up to the vision - to create a smoke-free generation for Nottingham & Nottinghamshire by 2040. "

4.1 Bellamy - Since NCC vacated Trowell Court its hosts a FOOD club ran by Family Action, a coffee morning ran by Bellamy Tenants and Residents Association to support Residents and a wide range of other community activities. Mansfield CVS also occupies Trowell Court as a base from which to coordinate activity in the delivery of the NHSEI Bellamy Prevent project.

Oak Tree – a new Community Hub is now available for community use at Oak Tree Leisure Centre. The forms part of the council's leisure management contract and work is now required to develop use and increase access.

Warsop – the Warsop Health Hub project has now progressed to RIBA Stage 3 and funding has been secured through the Towns Fund (£3m) in addition to a financial commitment of up to £5m through earmarked reserves and potential borrowing. An expression of interest has also been submitted to Sport England for £1.5m."

5.2 In all 3 districts partners are now coming together to better understand what PA looks like in their areas and what needs to be done to enable communities to move more. In Mansfield a new PA collaboration met initially around the new leisure contract, but such was the energy in the group to was decided to broaden the work to ensure a true understanding is feeding into more strategic conversations as well as ensure collaboration and maximisation of resources. Better understanding is also being captured as part of the wider NHSE prevention work in Coxmoor in Ashfield and Bellamy in Mansfield but also through community work across the districts.
